For me business success

goes hand in hand with fun, family, fragility, failure,
fame and fortune.

Arnold's favourite project

In the summer of 2020, we sold a production line for milk powder cans to a new customer of ours in Lagos, Nigeria. Initially the line was ordered by a customer from Vietnam who later cancelled his purchase order because of import-related

restrictions. This Vietnamese adventure cost us almost 1 year. The Nigerians were much better prepared and after a very detailed investigation of the technical details of the equipment they decided to go ahead and buy the line, all within 3 months. The line originally came from a canmaker in The Netherlands.

Mistakes are painful when they happen

but years later a collection of mistakes is what is called experience. Learn to get in touch with the silence within yourself and know that everything in life has a purpose.

A handwritten signature in black ink, enclosed in a square frame. The signature is cursive and appears to read 'Tjakko Cazander'. There is a circular stamp or mark over the beginning of the signature.

Tjakko's favourite project

2020 was a remarkable and unforgettable year! Globally, the Covid 19 pandemic struck and many countries were in a complete lockdown. For about 6 weeks in March / April we experienced radio silence in our office; no email requests, no telephone

calls, nothing at all. Although customers could not visit us to inspect the equipment in person, they did trust us enough to order individual machines, based on our extensive website information and honest comments by telephone. We were even able to sell 4-color printing UV lines to existing customers, who were unable to come due to travel restrictions. We are very grateful to our customers for their confidence in us! Even though we live in an uncertain and unstable time, let us hope and pray that next year will be better for everyone.

It is a great experience to work with a family team

like Cazander Bros. & Sis., frankly speaking the best for me in the last 22 years.

Alfredo's favourite project

My favourite project was when we bought the Manuel Aleman factory in Spain. It was a challenge for us to work out the sales, dismantling, loading and cleaning up of the total factory in time and in the best way possible.

What appeals most to me

is working in an organization with short lines of communication, a high degree of flexibility and that is always open to discussion. I am lucky to be part of the Cazander team!

A handwritten signature in black ink, enclosed in a square frame with corner brackets. The signature appears to be "Iris Goedegebuur".

ABOUT CAZANDER

Cazander is a business of buying and selling used can making machines for the steel and aluminum packing industry

The Cazander Brothers have been active in this niche market since 1996 and our customer base is still expanding. By now already over 500 companies in more than 100 countries worldwide have sold used can making machines or a complete line to Cazander and or bought such equipment from Cazander.

We are proud that we have been able to acquire our place as dealers in used can making machines in the very internationally oriented world of the metal packaging industry and that we may serve smaller, medium sized and large companies.

With Cazander's involvement, more than 2,500 can making related machines have changed ownership since 1996.

Cazander has its head office in The Netherlands and branches in Spain and Poland.

CAZANDER ALLIANCES

Joint forces

From the beginning we have joined forces with technical experts Veldkamp and Doradztwo i Usługi Techniczne (DiUT). Veldkamp is a major overhaul specialist and carries out removals as well, whereas DiUT is highly skilled in removals and dismantling complete plants.

With this cooperation we have two extensive fully equipped workshops at our disposal where assembling, overhauling, maintaining, engineering and electro technical activities take place.

The scale of this trio, between them, Veldkamp and DiUT have around 100 trained technicians, enables us to carry out big turnkey projects for the large canmakers such as Crown, Trivium Packaging and Silgan, but also for midsize and smaller canmakers.

CAZANDER WORLDWIDE

The background features a pattern of gold coins, with one silver coin prominently displayed in the upper right corner. The text is overlaid on a white background with orange decorative elements on the left side.

Cazander is active in 100 different countries around the world

International business has been a strong feature of the Dutch culture for centuries and for the last twenty five years Cazander has significantly contributed to this commercial spirit.

Day by day we extend beyond our borders to discover new markets, thus making our small country by the sea ever a bit bigger.

Rotterdam University university of applied science

Cazander provides students from the Rotterdam University with different kinds of traineeships. The university wants to stay closely connected to society and therefore teach students how to link their knowledge and skills to a sense of social responsibility in practice. Project assignments, internships and graduation projects - executed by innovatively thinking students - may benefit both Cazander in the practical field as well as the quality of the education.

Arnoud 2018

In my final year of the Commercial Employee and Office Manager Wholesale training I did an internship at the Cazander company. Here my job was to optimize the database and consequently I was in touch with many different customers. This gave me the opportunity to develop my personal competences and for that I am very grateful to Cazander Bros. & Sis.

Sujata 2019

As an International Business Management student, I had the opportunity to write my graduation thesis at Cazander Bros. & Sis. With great pleasure and interest, I researched ways for continuous improvement in the purchasing process for the further development of the company.
